

Grounded and Exclusive

TOTO introduces new floorstanding ceramics – ideal solutions for specific bathroom design requirements.

Sometimes, bathroom constructions and layouts make it necessary to find design solutions that can quite literally stand on their own. This inspired TOTO to offer floorstanding ceramics for their toilet, bidet and WASHLET products. Streamlined and minimalistic, these models complement a variety of bathroom styles. They can be the ideal solution for special situations – like remodels in vintage or existing buildings. As with all their products, the Japanese sanitaryware specialists have dedicated their extraordinary expertise to designing floorstanding versions that maximize comfort and hygiene.

Close-coupled and back-to-wall

TOTO developed two floorstanding models of its most popular wall-hung toilet, the RP Toilet. The close-coupled version with cistern and back-to-wall variation can be used as either a standard toilet or WASHLET. TOTO's RP collection has a bidet to match the standard toilet version. All RP ceramics share a streamlined, minimalist and modern design – making the new models a lovely addition to all contemporary bathrooms.

TOTO anticipates toilet-WASHLET upgrades

Things can always change: One highlight of TOTO's floorstanding RP Toilets is their flexibility for future upgrades. It's possible to install WASHLET on both the close-coupled and back-to-wall versions of the RP Toilet at a later point in time. If people use the toilet with a standard toilet seat, FlexCovers are placed over the
