

All In White

Featuring a new white trim and remote control, WASHLET RW seamlessly complements and elevates modern bathrooms.

TOTO introduced a new, stylish design of the bestselling WASHLET RW with white trim and coordinating white remote control. This version feels lighter and more serene, ideal for achieving a purposefully minimalist design. A white push plate perfectly complements the ensemble, ensuring a beautifully consistent look.

Perfect Comfort

This WASHLET RW model still offers the same tried and tested features in an elegant white design – for an extraordinary feeling of comfort. The lid raises and lowers automatically. A gentle nightlight helps people find their way in the dark. The comfortably warm heated seat provides a feeling of well-being from the very first moment. The white remote control makes it possible to select different spray types and adjust the water temperature, pressure and position according to people's individual preferences.

Hygiene at the Highest Level

TOTO's innovative EWATER+ technology ensures an extraordinary level of hygiene. Electrolysed water thoroughly cleans both the wand and toilet bowl without any chemicals. The extremely smooth CEOFIONTECT glaze keeps even the smallest particles of waste from sticking to the surface, keeping the ceramic perfectly clean over the long term. The powerful TORNADO FLUSH produces a spiral-shaped whirlpool that effectively cleans every inch of the toilet bowl. This extensive range of hygiene features also includes a dryer, odour absorption and TOTO's PREMIST technology. Another plus: It's possible to descale the RW model either manually or automatically, and either option is easy and user-friendly.

3 Tried and tested quality in a classic style: WASHLET RW with silver trim has impressed for years with its comfort, technology and design. Photo: TOTO

About TOTO Europe

TOTO, one of the world's leading sanitary ware companies with 36,000 employees world-wide, has an unwavering focus on people and their well-being. Since its foundation in Kitakyushu, Japan in 1917, TOTO has been developing, producing and marketing its comprehensive high-end bathroom concepts – entering the European market in 2009. The company aims to create a new attitude towards life through regeneration, comfort and hygiene, integrating easy-to-use technologies into their product designs in a smart, nearly invisible way. Japan's leading manufacturer in the sector, TOTO offers a comprehensive range of products including ceramic sanitary ware, faucets and accessories. The company can look back on over 40 years of success in developing and manufacturing WASHLET, having sold over 60 million of them world-wide so far.

TOTO is strongly committed to improving people's well-being – as well as that of our planet. TOTO joined Initiative RE100 with the goal of becoming an emission-free company and is working towards achieving carbon neutrality at all its locations by 2050 – primarily through the consistent use of renewable energies. In 2021, TOTO received certification from the Science Based Targets Initiative (SBTi) for adopting targets in line with Paris Climate Accord. By selling and developing products that save water, the company is helping conserve resources each and every day. Sustainable products will make up 83% of TOTO's portfolio by 2030 – with innovative technologies dramatically cutting water consumption. With these steps, TOTO is pursuing complete climate neutrality by 2050 – see our Integrated Report 2024 for more details.
